**EN** There are two key moments in musical practice: the sound and the pause, and both contribute to the composition of a harmonic balance. Balance, a project of plain coloured surfaces, was born to harmonize decorative elements in composite architectural spaces, defining a moment of suspension, a pause that enhances new expressive forms. Combined together, the soft, relaxing colour palette of cold and warm shades offer a pleasantly calming and welcoming visual sensation.

**DE** In der musikalischen Praxis gibt es zwei Schlüsselmomente: den Klang und die Pause, und beide tragen zur Komposition bei eines harmonischen Gleichgewichts. Balance, ein Projekt mit

**FR** Il y a deux moments clés dans la pratique musicale : le son et la pause, et tous deux contribuent à la composition d'un équilibre harmonique. Balance, un proyecto de superficies de colores lisos, nació para armonizar elementos decorativos en espacios arquitectónicos compuestos, definiendo un momento de suspensión, una pausa que realza nuevas formas expresivas. Combinados, la paleta de colores suaves y relajantes de tonos fríos y cálidos

**RU** В музыкальной практике есть два ключевых момента: звук и пауза, и оба вносят свой вклад в композицию гармонического баланса. Balance, проект однотонных поверхностей, был рожден для гармонизации декоративных элементов в сложных архитектурных пространствах, определяя момент приостановки, паузы, которая усиливает новые выразительные формы. ## BALANCE. TECH AND SPECS.

**IT** Per conferire alle superfici ceramiche ampia versatilità applicativa, Iris Ceramica Group si avvale di molteplici tecnologie produttive (es: gres porcellanato in grande formato, gres porcellanato tradizionale e tecnica full-bodied). Ne consegue che lo stesso materiale, realizzato attraverso tecnologie distinte in impianti produttivi dedicati, può presentare variazioni cromatiche e/o estetiche.

**EN** In order to ensure that ceramic surfaces have a wide range of application possibilities, Iris Ceramica Group uses various production technologies (e.g., large format porcelain stoneware, conventional porcelain stoneware, and the full-bodied technique). This means that a material that is manufactured using different

technologies in specialized production facilities may vary in color and/or appearance.

**DE** Um keramischen Oberflächen eine größtmögliche Anwendungsvielfalt zu verleihen, setzt Iris Ceramica Group mehrere Produktionstechnologien ein (z.B. das großformatige Feinsteinzeug, traditionelles Feinsteinzeug und die Full-Body-Durchfärbung). Daraus folgt, dass ein und dasselbe Material, das mit unterschiedlichen Technologien in hoch spezialisierten Produktionsstätten hergestellt wird, Abweichungen in Farbe und/oder Aussehen aufweisen kann.

**FR** Pour conférer aux surfaces céramiques une grande polyvalence

d'application, Iris Ceramica Group utilise de nombreuses technologies de production (par exemple, grès cérame grand format, grès cérame traditionnel et technique full-bodied). Par conséquent, le même matériau, réalisé avec des technologies différentes dans des usines dédiées, peut présenter de variations chromatiques et/ou esthétiques.

**ES** Para conferir a las superficies cerámicas una amplia versatilidad aplicativa, Iris Ceramica Group se vale de numerosas tecnologías productivas (ej: gres porcelánico en formato grande, gres porcelánico tradicional y técnica full-bodied). Por consiguiente, el mismo material, realizado a través de tecnologías diferentes en plantas de producción

específicas, puede presentar variaciones cromáticas y/o estéticas.

**RU** Для обеспечения высокой универсальности в применении керамических поверхностей Iris Ceramica Group использует разнообразные производственные технологии (например, производство крупноформатного керамогранита, традиционного и полнотелого керамогранита). Из этого следует, что один и тот же материал, произведенный по разным технологиям на специализированных производственных предприятиях, может иметь цветовые и/или эстетические вариации.
